

# SPG-Vadodara Chapter Organises SEG Distinguished Lecture on “ Hierarchical Seismic Imaging: A Multiscale Approach”

An illuminating lecture on 'Hierarchical seismic imaging: A multiscale approach' was delivered on 30.01.2015 by Jean Virieux, professor at the Université Joseph Fourier - Grenoble. He started with the basic hierarchy of seismic signal and waves and went on to add the dimensions to them one by one and how to define them through mathematical equations. It enlightened the geoscientific community and brushed fresh the problems and their solutions in geophysics.

The program was attended by SPG, Vadodara Chapter office bearers including Patron & ED-Basin Manager, Western Onshore Mr G C Katiyar, President & ED-HGS Mr U S D Pandey, Vice President and GM-COD Shale Gas Mr Arun Kumar. (The program was aptly compered by Mr K P Singh, Secretary, SPG, Vadodara Chapter and vote of thanks was proposed by Kilaru Karthik, Executive Member.)

Dr Jean delivering his talk, Mr G C Katiyar, Patron of the chapter greeting the speaker and audience

Mr K P Singh, Secretary while compering, Mr KilaruKarthik presenting vote of Thanks and Executive Body of SPG Baroda Chapter with Dr JeanVirieux
